

To Whom it May Concern:

I would appreciate it very much if this law was not stricken down. I can now return home from work without a half dozen phone messages from telemarketers. I can have dinner with my son without the rude interruption of these calls as well. Though I do have caller ID and can see it is no one I know, it is still an unwanted interruption and not answering only invites them to call back over and over and over again until I do answer. Do NOT allow this to happen again. It's been very quiet and I like it that way. Thank you.
